

Hello and thank you for your interest in dfemtoolz

Please note that all .node and .ele files are products of Tetgen software usage ([wias-berlin.de/software/tetgen/](http://wias-berlin.de/software/tetgen/)). Author of Tetgen software is Hang Si.

Line that was used to create these .ele and .node files is:

```
tetgen -pq1.1 -Y file-name.stl
```

Number 1.1 can be different to match user requirements.
